

I graduated from the Univ. of North Carolina with a degree in Business Administration and later earned an M.B.A. degree at Penn State University.

My career began at Gulf Oil Corp. in which I held successive positions: Fin. Analyst, Contract Administrator, Mgr. of Strategic Planning, Mgr. of M & A, Mgr. of Investor Relations on Wall Street, Chief Financial Officer at Gulf Oil's R & D Company. After the merger of Gulf and Chevron, I was a principal in the development of the Univ. of Pittsburgh Applied Research Center. I was named EVP and employed 2000 individuals. I became president of the Leadership Development Corp. and General Partner, a subsidiary of the Pittsburgh Leadership Foundation. I developed a partnership with World Vision, the largest Christian relief and development organization the world. We built their Gifts-in Kind program, soliciting donated products from U.S. Corporations for distribution to Third World countries and U.S. inter-cities. During 25 years of operations, we received and distributed more than \$4.0 billion of critically needed products to those less fortunate.

I've been a follower of Christ for fifty years and desire to grow closer and closer to Him during the remaining years on this earth.

I have been privileged to serve on many boards as well as advisory boards. These include Chairmanship or Presidency of: Pittsburgh Leadership Foundation, Eden Christian Academy, St. Stephen's Church, and Christ Church at Grove Farm, and the Women's Refuge of Vero Beach. I have served on the board of The Women's Refuge of Vero Beach for 10 years, the last eight as Treasurer. I have been V.P. and many other positions for the past eight years on the Board of Directors of our HOA at Sea Cove. My wife Jackie (of almost 60 years) and I love living in Vero Beach after relocating from Sewickley, Pennsylvania. I am fiscally conservative with strong listening, collaborative and communicating skills and would like to continue to put these skills and experience to use.
